

AVIGILON  TM

SECURITY & SURVEILLANCE CLOUD PLATFORM

Connect — Page 4

Manage — Page 8

Service — Page 10

Grow — Page 12

Avigilon Blue combines on-premise recording with cloud management for Avigilon partners and their customers.

This subscription-based solution enables small and medium-sized enterprises to easily manage all of their locations through a single intuitive interface, at the office or on the go.

Connect

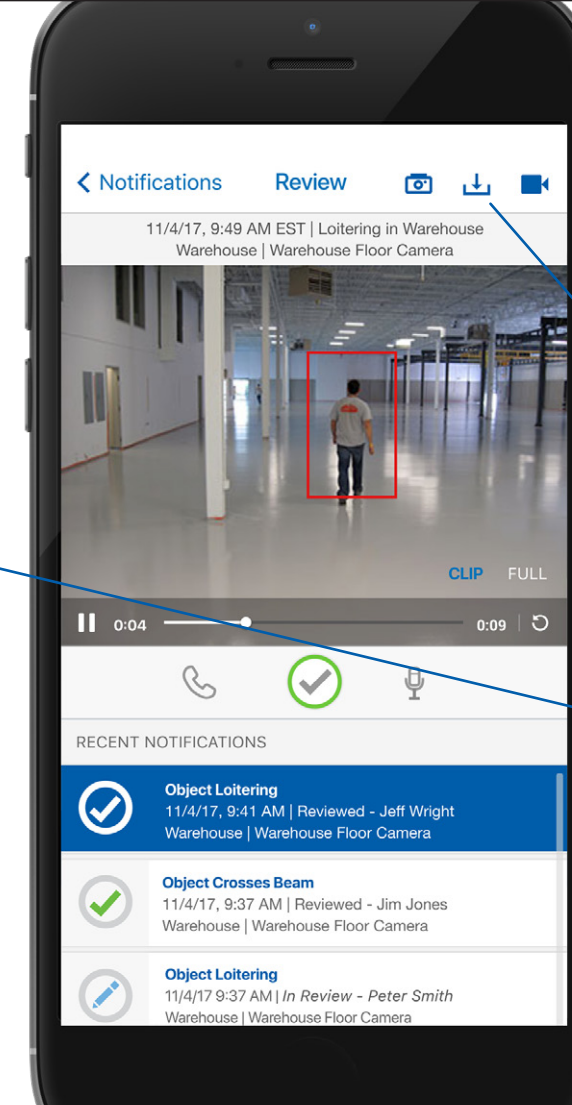

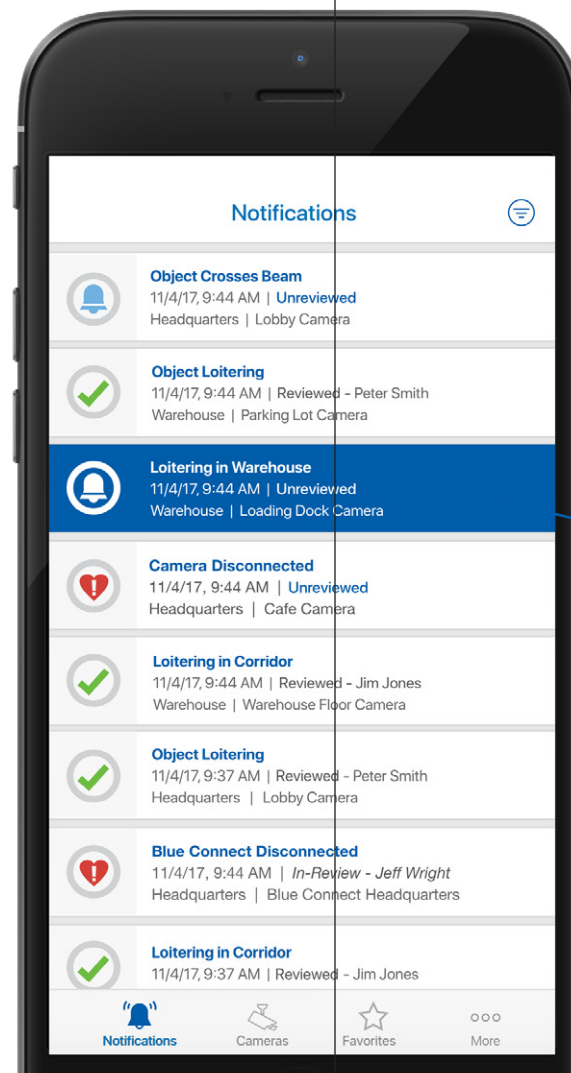

Easily set up, configure, and link the Avigilon Blue Connect device to the cloud in minutes with universal plug-and-play network protocols and an intuitive web-based user interface.

SIMPLE CONNECTIVITY

Start using the Avigilon Blue platform for new or existing sites with Avigilon and third-party ONVIF®-compliant cameras.

EASY ACCESS TO VIDEO

The Avigilon Blue platform enables viewing of live and recorded video from all connected cameras.

AVIGILON BLUE MOBILE APP

DOWNLOAD VIDEO

Video verification clips can be saved from the cloud to your mobile device (or any PC with Chrome or Firefox).

NOTIFICATIONS

Receive, view, and act on analytics-based security notifications.

Depicted features and functionalities may not be currently available and, if and when available, may not be as depicted.

Avigilon Blue Connect

The Avigilon Blue platform integrates an on-premise, quick-to-deploy Avigilon Blue Connect device.

OPEN CAMERA CONNECTIVITY

8 built-in PoE+ ports support Avigilon and third-party ONVIF®-compliant cameras.

LOCAL VIDEO STORAGE

8 TB of storage capacity to record and retain approximately 30 days of high-definition video.

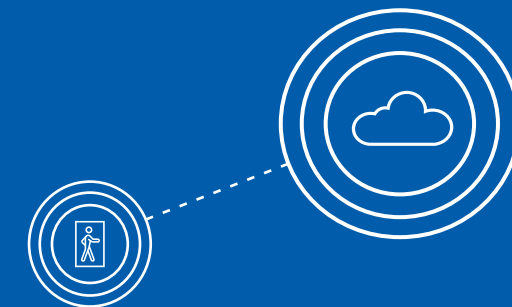

INTEGRATED ANALYTICS

Avigilon self-learning video analytics enabled, bringing attention to events that matter most.

MINIMAL BANDWIDTH USE

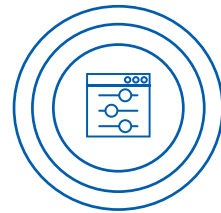

Only sends short analytic video clips to the cloud for further processing and viewing.

Manage

DEALER DASHBOARD

Run your business efficiently with customer site metrics. The dealer dashboard provides integrators with a view of their subscribers' security and surveillance cloud sites.

SUBSCRIBER OVERVIEW

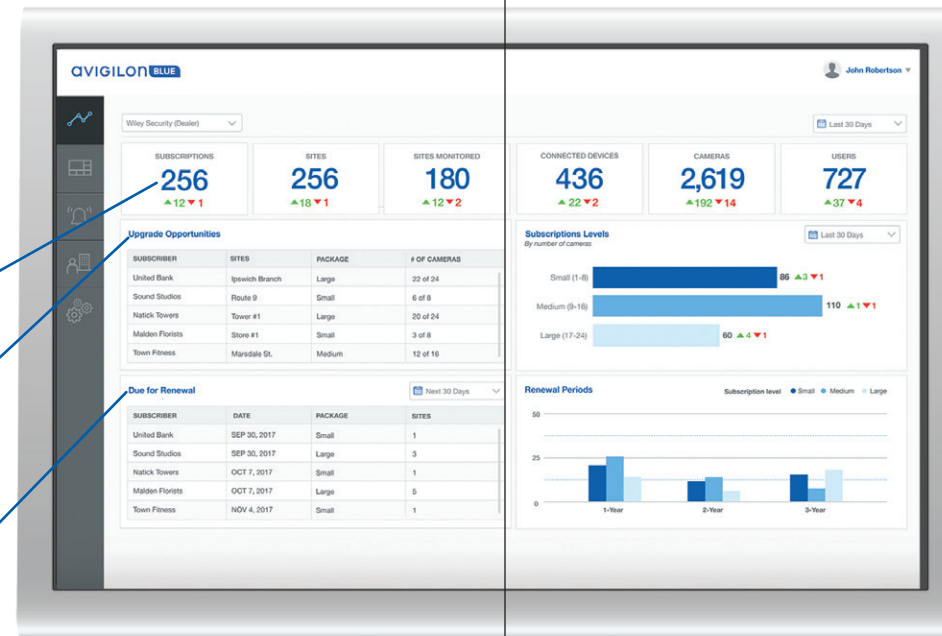

Lists the number of sites, Avigilon Blue Connect devices, and cameras that are live and connected.

UPGRADE OPPORTUNITIES

Indicates when sites approach a subscription plan upgrade, based on current plan and number of cameras deployed.

SUBSCRIPTION LEVELS & RENEWALS

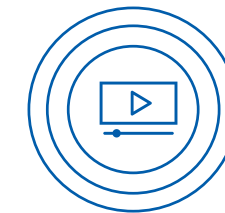

At-a-glance view of subscriptions by site plan size and sites approaching their renewal period.

Depicted features and functionalities may not be currently available and, if and when available, may not be as depicted.

MANAGING VIDEO

The Avigilon Blue platform automatically sends and stores analytic event-based video verification clips in the cloud, to review on your PC browser or mobile device.

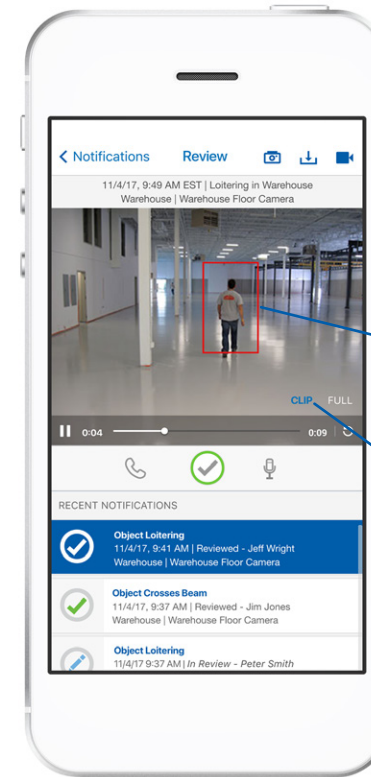

ANALYTIC OVERLAY

See self-learning video analytics views of object overlays when reviewing recorded and exported video clips.

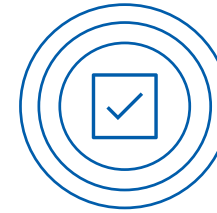

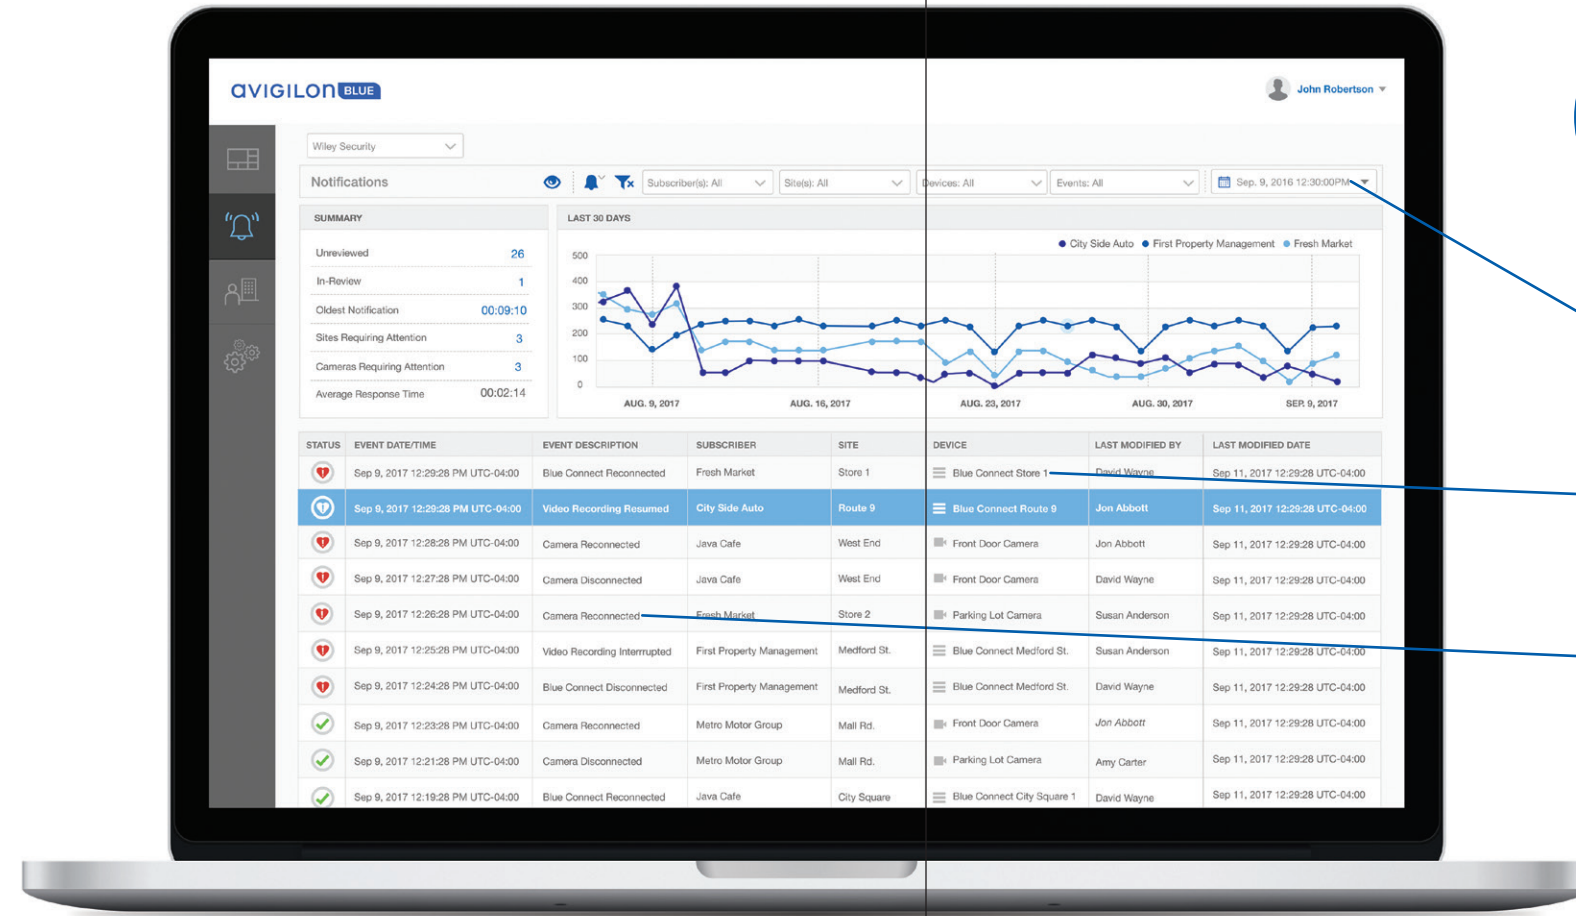

EASY VIDEO ACCESS

Review recorded video verification clips on your desktop browser or mobile device.

Service

Save time and help prevent potential hassle—monitor your customers’ system health events remotely. Diagnose and respond to certain system issues without needing to dispatch technicians.

PARTNER SITE HEALTH MONITORING

Avigilon partners can remotely diagnose and troubleshoot certain issues by viewing the status of cameras and hardware and acting on reported health notifications.

ALWAYS AVAILABLE

Monitor system health anytime with 24 / 7 / 365 availability.

HARDWARE DEVICES

Upgrade firmware and restart Avigilon Blue Connect devices without having to deploy a technician.

CONNECTED CAMERAS

Adjust settings, perform upgrades, and reset connected online cameras—even investigate cameras that are reported as offline.

Depicted features and functionalities may not be currently available and, if and when available, may not be as depicted.

Grow

RECURRING REVENUE

With Avigilon Blue site subscriptions, Avigilon partners can build recurring monthly revenue for their business. As the platform expands, new features and services will be added, bringing additional value to your customers and your business.

Depicted features and functionalities may not be currently available and, if and when available, may not be as depicted.

SMALL
1–8 cameras

MEDIUM
9–16 cameras

LARGE
17–32 cameras

ENTERPRISE
33+ cameras

SCALABLE SURVEILLANCE

The Avigilon Blue platform offers subscription packages with an easy ordering and upgrade process. The system automatically notifies users when an upgrade is recommended, based on the number of deployed cameras for their subscription plan.

SUBSCRIPTION PLAN FEATURES

- 30-day high-definition video storage
- Cloud-based video verification clips from analytic events
- System health and security notifications
- Unlimited user accounts
- Mobile device app* and PC web browser** access
- One- to five-year subscription term options

* Minimum requirements: Android 6.0 (Marshmallow) or Apple iOS 9.0

** Minimum requirements: Google Chrome or Mozilla Firefox on PCs with Apple OSX, Linux, or Windows operating systems

Powered by Microsoft Azure, Avigilon Blue leverages cloud services that are built, deployed, and managed through a global network of trusted data-centers, providing customers with enterprise-grade security and global scale.

Microsoft Azure offers the following features for Avigilon Blue cloud storage:

Communication protected by 256-bit AES encryption with controlled key management

Meets a broad set of international, regional, and industry-specific compliance and regulatory standards

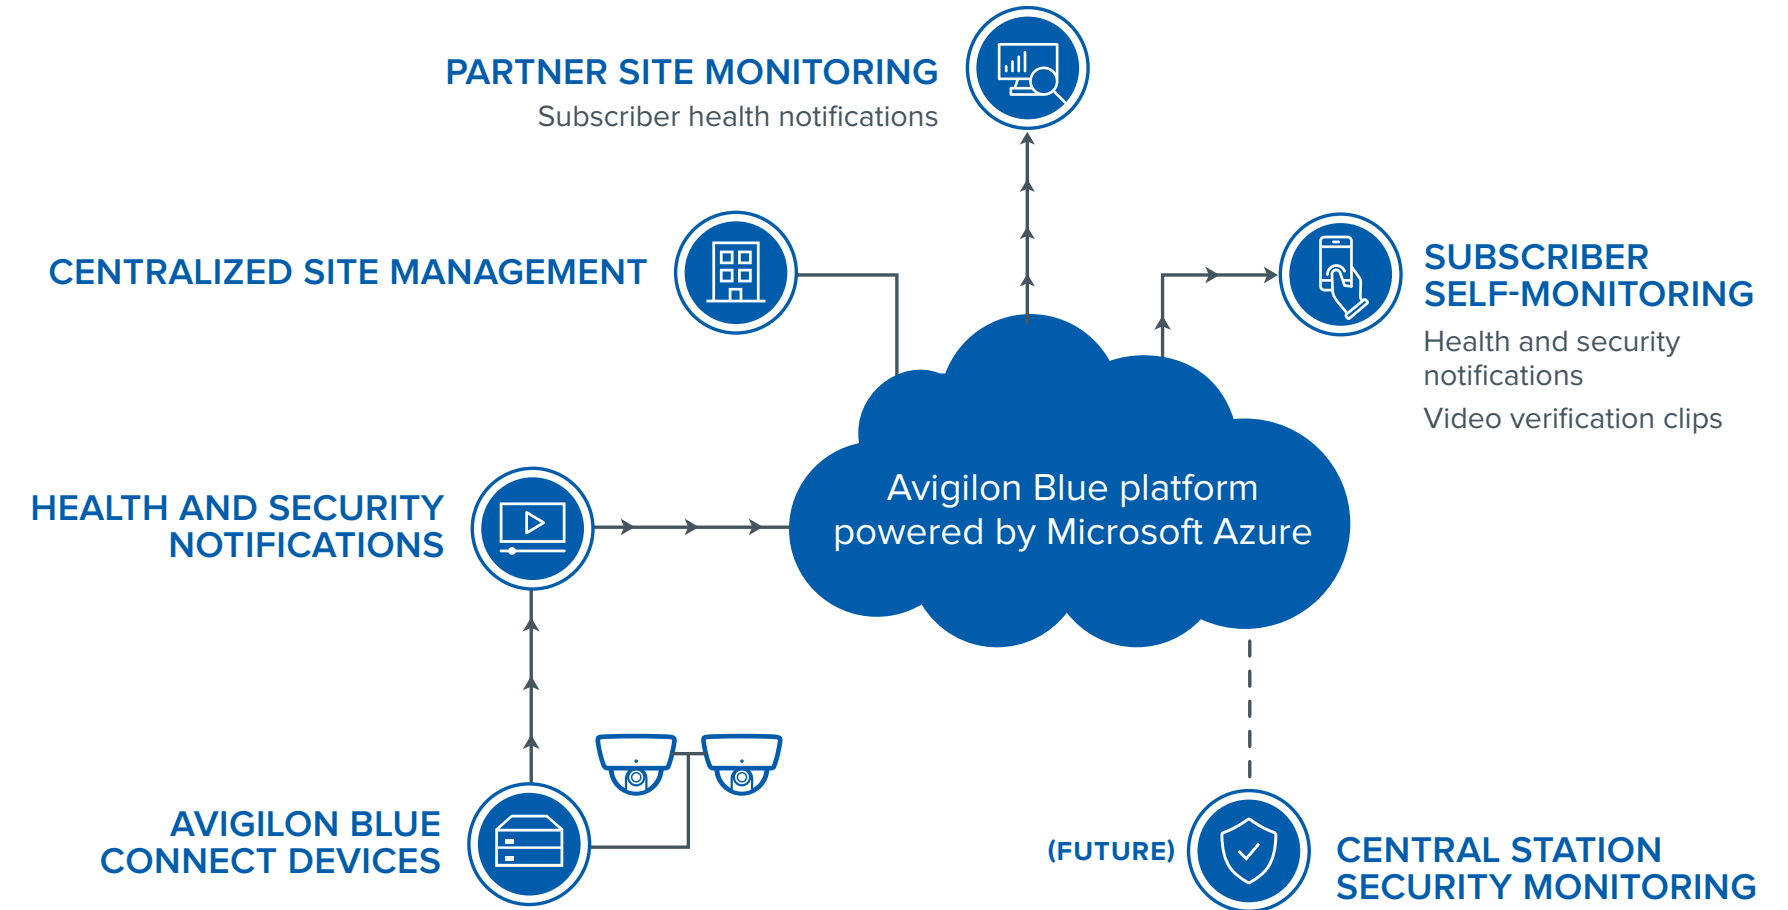

Redundant data storage within and across data centers

Provides various encryption models during transport and at rest, with no insecure open ports
